

# NDALC

NORTH DOWN & ARDS AREA LEARNING COMMUNITY

Offering a wider  
and more appropriate  
choice of courses for  
students aged 14+

## The purpose of the Learning Community

NDALC is one of 29 learning communities across Northern Ireland. The community is made up of 16 post primary schools, 3 of which are special schools, and SERC (South Eastern Regional College), and the approximate location of each is shown on a map overleaf.

All the schools and SERC work in partnership to **implement a curriculum that will meet the needs of our children.** The community gives 14-16 and post 16 students access to a **wider choice of academic, applied and vocational courses.**

**Students** will have the opportunity to **select from a large menu of courses which best meet their needs and ambitions.** Their choices will be informed by their own skills and abilities, by up-to-date information about the labour market and by what can be accommodated within each

organisation. **Career guidance and the desire to follow a particular path will be further informed by labour market information available.** This information, to which students and parents will have regular immediate access, will detail where there are skill shortages and where there is a need for recruitment.

This new education experience will give students access to a curriculum that meets their needs while at the same time contributing to the needs of the Northern Ireland economy.
